

TEST YOUR INTERNET SPEED TODAY!

YOU HOLD THE KEY TO FASTER INTERNET SPEEDS IN COLUMBIA COUNTY!

All of us should have access to broadband for work, school, safety, health and play. But many homes and businesses in the Columbia County have slow or no internet access.

Together we can fix that!

The first step is to identify and document the areas with no broadband or limited access to it. That's where you come in.

- We need as many Columbia County residents as possible to take a simple internet speed test.
- From your home or business, simply visit: madisonregion.org/test-your-speed/ or snap this QR Code ⇒
- It will only take a few moments and your personal information is always protected and will never be shared.
- Even if your home doesn't have reliable internet access, you can help. Visit madisonregion.org/test-your-speed/ from a friend's home or local library and click on "Enter an address with No Available Service" to complete the survey.

With this information, we can access grant funding designated to bring broadband to the areas of our community that need it.
