RE: Member Energy Efficiency and Renewable Energy Loan Application

Dear James:

I am pleased to inform you that Lodi's application for a zero percent interest loan through WPPI Energy's Member Energy Efficiency and Renewable Energy Loan Program has been approved. The requested loan amount of \$43,250 has been approved for the lighting project at Lodi's Goers Park.

I have attached draft versions of loan documents for review and approval. In addition, the city will need to adopt a resolution authorizing the borrowing of the loan funds. I have attached a template you may use if you wish. Please let me know when the loan documents are approved, and send me a copy of the resolution. At that time, I will send you execution versions of the loan documents for signature.

Once loan documents are executed and the loan monies are disbursed, the City of Lodi will be invoiced by WPPI Energy for repayment monthly, beginning the month after receipt of the funds. A 1% loan origination fee of \$432.50 will be included on the first month's invoice.

Please contact me at 608-834-4507 or bcarlson@wppienergy.org with any questions you may have. Thank you for participating in WPPI Energy's Member Energy Efficiency & Renewable Energy Loan Program.

Sincerely,

A handwritten signature in black ink that reads "Beth Carlson".
